New Life Mission equips homeless mothers with the skills and knowledge to transform their families in a Christ-centered environment. Through education, accountability, and goal advancement, they empower families to become self-sufficient. They work to permanently break the generational cycle of homelessness by providing homeless mothers and children with housing, access to health care, transportation, education, nutrition, job training, and life skills education in a safe setting.

Genesis House provides safe shelter for women who are pregnant and have given birth. Since 1977 thousands of young mothers have received needed care and services including shelter, birthing and parenting classes, transportation to appointments, supplies needed during pregnancy and for newborns.
