# More Needs

- **\$12,500** to cover unexpected A/C replacement and repairs this summer. Between central air systems and window units, we have **61** air conditioners!
- **\$2,000** per month (ongoing need!) for outside counseling in addition to a full-time mental health coordinator. The 3 outside counseling agencies provide intense trauma and grief therapy for moms and children, as well as play therapy for preschool children. Every mom and child receive counseling when they come into the program.
- **\$1,000** for a bunk bed, mattresses and dresser at Casa Carol. This apartment previously served as Kids Club and now needs furniture for a new family.
- **\$500** to replace many dining room chairs at Casa Carol and Joy's Place apartments. We teach moms how to meal plan and cook for their children and encourage them to sit together for dinner. Our chairs experience a lot of wear and tear.
- **\$250** provides a twin mattress and mattress protector. We have more than **100** beds, so this is an ongoing need.
