

New Life Mission

MISSION STATEMENT

In a Christ-centered environment, we equip homeless women and children to transform their families for generations. Through education, accountability, and goal advancement, our program empowers families to become self-sufficient and break the cycle of homelessness.

WHO WE SERVE

When a homeless mother calls our intake line or fills out an online application, she receives the individualized resources she needs to move her family out of their current situation.

With safe housing and time to breathe, mothers have the space to heal from their past trauma and focus on setting goals to help move their families forward. Her children receive enriching child care, tutoring, mental health support, and healthy socializing through planned activities. Through Christ, accountability, education, mental health counseling, and support, true transformation takes place!

OUR PROGRAM

Our moms work through a four-phase program that lasts up to two years during which they have access to safe housing, one-on-one case management, mental health support, counseling, parenting support, weekly Bible Studies, life skills classes, educational guidance, financial coaching, education and career guidance.
